13. The schedule will state the times within which articles will be required to be delivered; and where the printed schedule is not used the periods stated in it for deliveries must be copied in the bids. All the articles which may be contracted for must be delivered at such place or places, including drayage and cartage to the place where used within the navy yards, respectively, for which the other is made, as may be directed by the commanding officer thereof; and, all other things being equal, preference will be given to American manufacture. No article will be received after the expiration of the period specified in the schedules for the compistion of deliveries, unless specially authorized by the dopartment.

It is to be provided in the contract, and to be distinctly understood by the bidders, that the amount and number of articles enumerated in classes based of the said enumerated articles, and in mich quantities, and in mich quantities, and in mich quantities, and in mich quantities, and all mich fines, as the burstin or commandant may require; such increase, however, not to exceed conclured of the quantities stated, and requisitions sent through the post office shall be deemed sufficient notice, during the fiscal year-ending 30th June, 1885; and whether the quantities required be more or less than those specified the prices shall romain the same.

All the articles under the contracts must be of the best quality, delivered in good order, free of all and every charge or expense to the government, and subject to the inspection, count, weight, or measurement of the said navy yard, and be in all respects satisfactory to the commandant thereof. Baiders are referred to the yard for phane, specifications, or samples, and any further description of the articles. Contractors for classes headed "miscellaneous," to be delivered, will be required, and twenty per centum as additional security deducted from each payment until the contract shall have

within thirty days after the presentation of bills, in triplicate, duly vouched and approxed.

No part of the per centum reserved is to be paid until all the rejected articles offered under the contrast shall have been removed from the yard, unless specially authorized by the department.

It will be stipulated, in the contract that, if default shall be made by the parties of the first part in delivering all or any of the articles mentioned in any class bid for, of the quality and at the times and places above provided, then and in that case the said parties will forfeit and pay to the United States a sum of money not to exceed twice the amount of such class; which may be recovered from time to time according to the act of Congress, in that case provided, approved March 3, 1843. March 3, 1843.

The opening most sign the contract, and their responsibility certified to by a may agent, collector, district atterney, or some other person gatisfactorily known to the burean.

It is to be provided in the contract that the bureau shall have the power of annulling the contract, without less or damage to the government, in one Congress shall not have made sufficient appropriations for the articles named, or for the completion of works estimated for, and on which this advertisement is based, and shall also have the power to increase or diminish the quantities named in the classes not lended or insectiance. In the schedic twenty-lave per cent.

Persons whose offers shall be accepted will be notified by letter through the post office, which notice shall be considered sufficient; and, if they do not enter into contract for the supplies specified within fifteen days from the data of notice from the burean of the acceptance of their bid, a contrast will be made with some other person or persons, and the guarantors of such defaulting bidder will be held responsible for all delinquencies.

All offers not made in strict conformity with this advertisement will, at the option of the bureau, be rejected.

Those only whose offers may be accepted will be notified, and contracts will be ready for execution as soon thereafter as may be practicable.

May 2—lawiw

House of Representatives United States, Clerk's Office, March 31, 1857. Cork's office, March 31, 1857.

W. S. WOODSIDE.

MOUNT WASHINGTON FEMALE COLLEGE, stututon, located at Mount Washington, six miles out on the Northern Central railroad, and chartered by the Maryhand legislature, will open on the first Wednesday in May, 1817, with a full faculty of experienced instructors, consisting of five gentlemen and several ladies. This college is all that could well be desired for the purposes of a finished female education. No pains or expenses have been spared to make it what it ought to be in all respects. The locality is highly as inbrious and picture-sque, and has been selected as one of the make it what it ought to be in all respects. The locality is highly as inbrious and picture-sque, and has been selected as one of the make it with the State. The shady and beautiful grounds afford ample scope for pleasant walks and healthful recreation. The building is a large, limposing brick edifice, (created expressly for a first class female college.) thoroughly ventilated, lighted with gas, handsonely furnished, water supplied to each story, and has accommodations for about 100 boarders. The establishment is very complete, costing bod less than \$40,000. During this the first year of its operation, it musters \$67 boarders.

Catalogues and further information may be obtained at the United office; and of Rev. De. E. Heiner and Hon. J. Vansant, Baltimer; and Rev. George Lewis Scaley, Principal, Mount Washington, Mary land.

President of the Board of Visiters.

United States Naval Court of Isquitty, Washington, February 26, 1857.

IMPORTANT TO COTTON PLANTERS, by which their incomes must be doubled.—The undersigned has invented and obtained lette, a patent from the United States for the averagement and combination of machinery for converting seed outse into parres by one continuous process, from the gin through the various preparation and apinning machinery, until it is ready for shipment or weaving.

The saving from waste by this process will be at least ten per cent, and yarns made from the fibre (unbroken and uniquered by the operations of the machinery of the present process used to open and detentionally in will be attoined fifty per cent. stronger and heavier, as will command the markets of the world, distancing all competition at advanced prices.

The undersigned is prepared to dispose of privileges to use his patent; and planters will be informed as to terms, with complete in structions how to nee it, how to obtain the best machinery, and all other necessary particulars, on application addressed to Dec 6—2awlysi
